## **Tyler and Rock Street Sewer Project Housing Replacement Program Synopsis**

The Tyler and Rock Street Sewer Project proposes to mitigate a serious flood hazard in the Vine City neighborhood by buying properties necessary for the construction of a storm sewer tunnel with the capacity to carry a 25-year event storm. It is the goal of the Housing Replacement Program to offer opportunities to those homeowners who are displaced by this project to remain in the Vine City neighborhood. Further, it is the intent of the City that this replacement housing be made available at no more cost than the homeowner is already paying in monthly mortgage payments. A description of how the housing replacement program will work is found below:

### **Relocation Issues**

Many of the homeowners impacted by the September 21, 2002 flood in Vine City have been relocated to temporary housing, under six-month leases. These leases will be extended and the City will continue to pay rent and electric utilities for these homeowners until they are placed in their permanent home. Further the City will pay moving expenses to move these families from the temporary housing back into their new homes.

For families who are still in their homes, the City will pay moving expense to move them to their new home when ready.

### **Financial Assistance**

The City of Atlanta is prepared to provide financial assistance to homeowners to purchase new homes in the Vine City neighborhood. The homeowner may purchase a new home or an existing home in the neighborhood. The City's assistance will be in the form of a lump sum payment towards the purchase price of a home. Current limits for this down payment assistance is \$20,000, however the City plans to seek authority to raise this limit to \$50,000 for this program. Additionally lots for the construction of new homes in the Vine City neighborhood will be provided at no cost to the homebuyer. Under the guidelines of this program, the homeowner will be required to remain in the home for five years after completion. Should the homeowner move out of the home before the end of the five-year period a portion of the down payment assistance and lot price would be due to the City.

Each homeowner who participates in this program will also be expected to contribute the sales proceeds from the sale of their existing home to the City towards the purchase of their new home. If the homeowner has an outstanding mortgage on their existing home, this mortgage will be paid off at closing and only the net proceeds would be applied to the purchase of the new home.

Participation in the housing replacement program is voluntary and homeowners are not required to stay in Vine City. However, should the homeowners purchase homes outside of Vine City the assistance provided by the City will be reduced or eliminated.

### **Home Construction**

The City will be working with and through Tyler Place Community Development Corporation and the Vine City Health and Housing Ministries to construct new homes for

purchase by the affected homeowners. In the construction of the homes, every attempt will be made to accommodate the needs and preferences of the homeowner as to style, floor plan, colors and finishes. However, our goal to place the homeowner into a new home at no additional cost above what they are currently paying places practical limits on how much leeway we have in these areas.

### **CITY OF ATLANTA** **PROGRAMS AVAILABLE FOR REPLACEMENT HOUSING** **IN FLOOD DAMAGED AREAS**

#### **HOUSING DEVELOPMENT PROGRAM**

The Bureau is working with currently the City's Community Development Corporations to facilitate the construction of up to 50 new homes per year. This program is funded through a \$3,000,000 construction fund from the Atlanta Empowerment Zone. Homes will be constructed on vacant lots throughout the City in cooperation with many of the Community Development Corporations. The City Council recently approved the use of over 350 City-owned lots for use in this program. City owned properties near the flood-damaged areas are shown on the attached maps. Tyler Place Community Corporation, Vine City Housing Ministries and the University Community Development Corporation are the primary CDC's that could be involved in the replacement housing.

#### **MORTGAGE ASSISTANCE PROGRAM**

Under current policies, the Atlanta Empowerment Zone would provide from \$15,000 to \$20,000 in Mortgage Assistance to first time homebuyers displaced by the flood in the Vine City neighborhood. This program is administered through the Bureau of Housing Finance and Economic Development and applications may be obtained by contacting the Bureau at 404 330-6410.

There has been considerable discussion in raising the MAP limits to \$50,000 that would be made as a low interest loan. Additionally the program may need to be amended to allow an exception to the "first time homebuyer" requirement to assist the homeowners impacted by the buy-out program.

#### **URBAN RESIDENTIAL FINANCE AUTHORITY**

The Urban Residential Finance Authority provides up to 5% of the house price to a maximum of \$7500 for down payment assistance. These funds can be used in conjunction with the MAP program above for a total of \$27,500 in financial assistance.

Additionally, URFA provides a bond-financed mortgage product to fiancé home purchases. While the interest rate required by the bonds is not significantly different from private financing, this program can be useful in financing home purchases for less credit-worthy applicants.

LAND BANK PROGRAM

---

The Atlanta Empowerment Zone is providing funds to the Atlanta/Fulton County Land Bank Authority to assist in the acquisition of vacant lots and houses for the construction and rehabilitation of homes for homeownership. Under this program up to 450 lots will be acquired within the Empowerment Zone area to provide affordable homes for purchase. This program will be used in conjunction with the other homeownership programs to significantly increase the supply of affordable homes. \$2.4 million has been allocated to this project.

upon approval by the Council for land acquisition for the Rock and Vine Streets Sewer Project;  
and

**WHEREAS**, to implement the Housing Replacement Program the funding limits of the Mortgage Assistance Program must be increased from \$20,000 to \$50,000 to assist in the financing of the replacement homes to be built in the Vine City neighborhood, and said increase must be approved by the Coordinating Responsible Authority (CoRA) of the Atlanta Renewal Community; and

**WHEREAS**, the specifics of the Housing Replacement Program are more fully described in Exhibit A and the list of owner-occupied properties to be voluntarily acquired is described in Exhibit B, attached hereto;

NOW THEREFORE BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ATLANTA, GEORGIA as follows:

Section 1: The Council of the City of Atlanta supports the provision of replacement housing to existing homeowners displaced by the Rock and Vine Streets Sewer Project at no additional costs above that which the homeowners are currently paying in monthly mortgage cost.

Section 2: The Department of Planning and Community Development is hereby directed to coordinate and implement the Housing Replacement Program as described in Exhibit A attached hereto.

Section 3: The Department of Community Development is hereby authorized to file an application with the Atlanta Development Authority for the use of the Georgia Dome Trust fund in the voluntary acquisition of owner occupied properties in connection with The Rock and Vine Streets Sewer Project as listed in Exhibit B attached hereto.

Section 4: This ordinance applies to all owner occupied properties located within the area identified in Ordinance 03-O-0311 as included in the Rock and Vines Streets Sewer Project. In the event of any homeowner's refusal of voluntary acquisition, all homeowners in agreement shall be allowed to proceed with the transactions for voluntary acquisition on a negotiated price with the Atlanta Development Authority in order for funds from the Georgia Dome Housing Trust Fund to be available for use in this project.

Section 5: All funds used from the Georgia Dome Housing Trust Fund *for purchase and acquisition of homes only, shall be reimbursed* by the water sewer fund, within 30 days after sale of the owner occupied properties within The Rock and Vines Streets Sewer Project boundaries.

Section 6: The Coordinating Responsible Authority of the Atlanta Renewal Community is hereby requested to increase funding limits of the mortgage assistance program from \$20,000 to \$50,000 to assist in the funding of the housing replacement program owner occupied properties in connection with The Rock and Vines Streets Sewer Project.
